

FAQs for poster preparation, submission, and presentation

1. Who can present a poster at ICC-12?

Students are eligible to submit. The first author of each submission must be a student.

2. What is the recommended poster size?

The recommended poster size is A0 in portrait orientation.

3. Can I use landscape orientation?

No.

4. What is the submission procedure?

The poster and a two-minute video pitch is required to be submitted through a Google form.

5. Is there a specific template for the poster?

To maintain uniformity, a sample poster template is attached. However, students can opt for a different flow as long as they stick to A0, two-columns, portrait style posters.

6. How will I know if my poster is selected for presentation?

Decision emails will be sent for the submissions.

7. Do I need to print the poster myself?

Yes, presenters are responsible for printing and bringing their posters to the venue.

8. Will I have to give a formal oral presentation?

The poster session is primarily intended for interactive discussion rather than a conventional long oral presentation. However, presenters should be prepared to give a concise explanation of their work and answer technical questions.
